# WHY WE ARE DIFFERENT

*Modern Contractor Solutions* is a national magazine tailored to meet the day-to-day business needs of commercial, general, and concrete contractors. We offer solution-driven editorial content that contractors use every day to run their businesses. *Modern Contractor Solutions* continues to partner with contractors to ensure our magazine has a wide range of coverage for the construction industry, setting us apart from traditional, more vertical industry magazines.

# OUR CIRCULATION AT WORK

*Modern Contractor Solutions* can send your message to 40,000 contractors with our printed edition and enhanced digital edition each month. Our print edition offers the traditional longevity you would expect with printed products, allowing contractors to keep them at home, in the office, or in their work vehicle. For our advertisers that means you could get long-term branding opportunities. Our digital edition has its own advantages allowing you to make your products and equipment come to life with streaming videos attached to your ad. Contractors can link directly to your website or email from our enhanced digital edition. For more than eight years, *Modern Contractor Solutions* has established a brand that contractors have grown to trust and rely on for critical insights needed to get the job done right.

“Why I like *Modern Contractor Solutions* ... because I feel I am getting the most “bang” for my advertising dollars. From the banner ads to the print ads, my money is well spent. The magazine always seems to be high quality and their special sections are always something that I look forward to reading (let alone advertising in). The person that handles my account is great to work with and a joy to hear from.”
