## 2018: SOLID TO THE CORE

World of Concrete is the largest annual international event dedicated to concrete and masonry professionals. Make plans now to attend and leave with the CORE knowledge and latest equipment you need to win more jobs and strengthen your business. Make the most of the time to visit exhibitors showcasing the latest technology and equipment to help you take your business to the next level.

## WOC BEGINNING

Introduced to the commercial construction industry in Houston, Texas, in February 1975, World of Concrete presented 77 exhibiting companies in 22,200 net square feet of exhibit space with 1,550 construction industry professionals in attendance.

## WOC TODAY

43 years later, World of Concrete now boasts more than 1,500 exhibiting companies and 55,000 registered industry professionals in more than 725,000 net square feet of exhibit space. WOC offers both 90-minute and 3-hour seminar sessions; more than 150 skill-building seminars with top industry experts.

Turn the page  
for a sneak  
peak at some  
of the must-see  
exhibitors you'll  
see at the Show.

## AURAND

### Don't let surface prep put you up against a wall

Aurand has the hand-held surface prep tools that you need. Units are available in widths ranging from 5 to 12 inches wide, and are perfect units to reach position-challenged areas, minimizing user fatigue. All of our units are available with dust collection shrouds to minimize silica concerns when used with a proper HEPA vacuum system. Please visit us at WOC and ask about our SHOW SPECIAL.

## CREWTRACKS

### Web interface to gather information

CrewTracks untangles the mess that lies between the bid and the accounting. The web interface enables you to schedule jobs, dispatch crews and equipment, and view automatically-generated reports in real time, while the mobile app allows field workers to quickly report attendance, work completed, and materials and equipment usage. Field workers can also collect a signature on their mobile device for a daily work report, a change order, or a custom electronic document. CrewTracks makes it easy to gather the information you need to eliminate paperwork, stay within budget, and stop letting so much time and money slip through the cracks.

## DEUTZ

### Power Packs

DEUTZ factory-built Power Packs are available in ready-to-install packages for mobile machinery. Each unit includes a cooling package and mounted exhaust after-treatment. Engines can be equipped with a suction or pusher fan. All DEUTZ Power Packs are designed, fully tested, and validated to offer a robust and completely integrated power package. These complete "drop in," ready-to-run packages offer the same performance and reliability associated with all DEUTZ engines and powered equipment.

## DIGGA NORTH AMERICA

### MM-10K Anchor Drive

With a maximum theoretical output torque of 10,378 ft-lbs, the new Digga MM-10K Anchor Drive delivers more powerful performance than comparable units for increased overall productivity. The Digga MM-10K Anchor Drive is engineered for use on Mini Loaders, Skid Steers, and Excavators. The new planetary gearbox-driven Anchor Drives will work effectively on auxiliary flows of up to 18.5 gpm. The Model MM-10K Drive is ideal for the tight overhead conditions and can be used for multiple applications where Dual Axis 4-way swing is required. Digga's MM-10K is covered with a 1-year warranty on the planetary gearbox, a 1-year warranty on the hydraulic motor, and lifetime shaft pull-out warranty for extra protection.

**TOKU AMERICA INC**

**Striker Hydraulic Breakers**

Striker Hydraulic Breakers by Toku-America Inc are exceptional hydraulic attachments which produce industry leading impact energy, while also increasing overall productivity. Models from 100 ft-lb – 12,000 ft-lb all have patented, accumulator-free technology. This exclusive, built-in system removes pressure spikes, and allows the breaker to have significantly less parts, downtime, and overall operation cost. Model's 100 ft-lb – 1,000 ft-lb have the ability to be interchanged between multiple machines with an easy to use, pin and bushing kit system, allowing the breaker to be almost universal based on machine class. The larger model striker breakers, 1,500 ft-lb – 12,000 ft-lb, are in silenced box housings, which reduce overall decibels on site.

**PACKER BROTHERS**  
**Arrow Master's Hammer-Compactor**

The Arrow Hammer 1350 is a versatile, highly productive concrete breaker and soil compactor. Featuring a John Deere diesel engine and patented Creeper Drive mode, the Arrow Hammer breaks, cuts, scores, and compacts trenches like no other. With an impact energy of 13,000 lbs, no concrete, rock, or asphalt will stand in this machine's way. This monster compacts soil in layers of 3 to 6 feet at 95 to 100 percent efficiency for foundations and trenches. Arrow Hammers will increase productivity and the difference will be seen in your bottom line.
